Karl confirmed, we should send the email and attachments to Bev Scheulen at Bev.Scheulen@ago.mo.gov and Pam Coffey at pam.coffey@ago.mo.gov.

Bev is the assistant we work with in the AGs office and Pam is the deputy's assistant.

Let me know when you are ready to send.

Thank you,

Julie

Hi Julie,

I don't have the email. I believe it's in Karl's email account as he's been corresponding with the AG directly. Let me know if you need it tracked down and I'll get Sarah to work on it.

I am sending the email and attachments to the assistant, Bev Schuelen or do we have an email address for the AG?

Thank you,

Julie

Hi Julie,

Our plan is for Karl's email to the MO AG be sent at 1:45 p.m. today.

Attached are the two documents that should be attached to Karl's email.

Thanks!

Curtis

- 1:00 **LaTonya** sends **Karl** letter to Sen. Blunt
- 1:00 **Ben** sends final approved WL Update to this email list
- 1:30 **LaTonya** emails WL Update and ORD assessment to congressional

delegation (include Sen. Blunt)

●■■■■■■■■ 1:45 Julie sends **Karl** email WL Update and ORD assessment to MO AG

David H email WL Update and ORD assessment to PRP

Shawn G email WL Update and ORD assessment to Matt L. deputy fire chief

Ron H email WL Update and ORD assessment to MDNR and MDHSS

●■■■■■■■■ 2:00 ORD Assessment and WL Update Posted to Web and distributed to list

▪▪ **Sarah:** to relevant state and local elected officials

▪▪ **Shannon** and **Toni:** Social Media push. Let's use the WL #. The top story is important to the WL interested people.

●■■■■■■■■ 2:00 OPA team ready for media inquiries on ORD assessment

▪▪ Spokesperson: **Ron** H.

[I suggest using something like this]

Dear General Koster:

I'm enclosing a study recently completed by the EPA's experts in the Office of Research and Development (ORD) that assessed the consequences of a highly unlikely event: movement of the SSE in Bridgeton Sanitary Landfill into contact with the RIM that has been mapped in OU-1 of the EPA's Superfund site at West Lake Landfill. Recall that last fall, the PRP's contractor prepared a risk-assessment report: it's this report that ORD has reviewed and, in many cases, critiqued.

Region 7 has shared this ORD study with the Missouri congressional delegation, as well as with interested community leaders. As my transmittal letter to Sen Blunt stresses, this highly unlikely event is just what the isolation barrier is intended to prevent. That said, ORD's assessment of the consequences of the SSE encountering RIM establishes that the results would not be an uncontrolled release of radiation from the RIM, a scenario which has concerned the community and local first responders. Region 7 has shared the ORD study directly with the Pattonville Fire Department to assist their planning for emergency response.

I will continue to keep you posted on EPA's work with the Corps of Engineers on the isolation barrier, as well as the status of location and design work required to initiate construction of the barrier.

Subject: ACTION: WL update draft for final clearance

Karl,

Attached is the WL Update draft for your final clearance.

Here's the planned release schedule. Note, we added that you might want to send an email to the AG. If not, I can send one to Farnsworth if you think that's appropriate.

- 1:00 **Karl** letter to Sen. Blunt
- 1:30 WL Update and ORD assessment emailed to all congressional members

Karl email WL Update and ORD assessment to MO AG

David H email WL Update and ORD assessment to PRP

Shawn G email WL Update and ORD assessment to Matt L. deputy fire chief

Ron H email WL Update and ORD assessment to MDNR and MDHSS

- 2:00 ORD Assessment and WL Update Posted to Web and distributed to list

▪ **Sarah:** I'm assuming this includes all relevant state and local elected officials. If not, please let me know

▪ **Shannon and Toni:** Social Media push. Let's use the WL #. The top story is important to the WL interested people.

• 2:00 OPA team ready for media inquiries on ORD assessment

▪ Spokesperson: **Ron H.**
